

KubeCloud

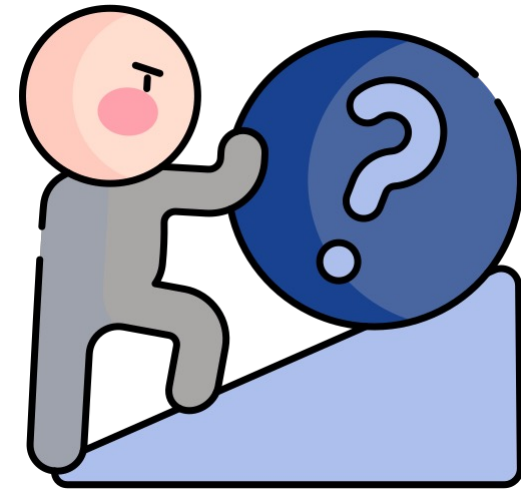

Soluciones disruptivas para elevar tu estrategia multicloud.

Beyond Clouds, ¡KubeCloud!

Common Challenges:

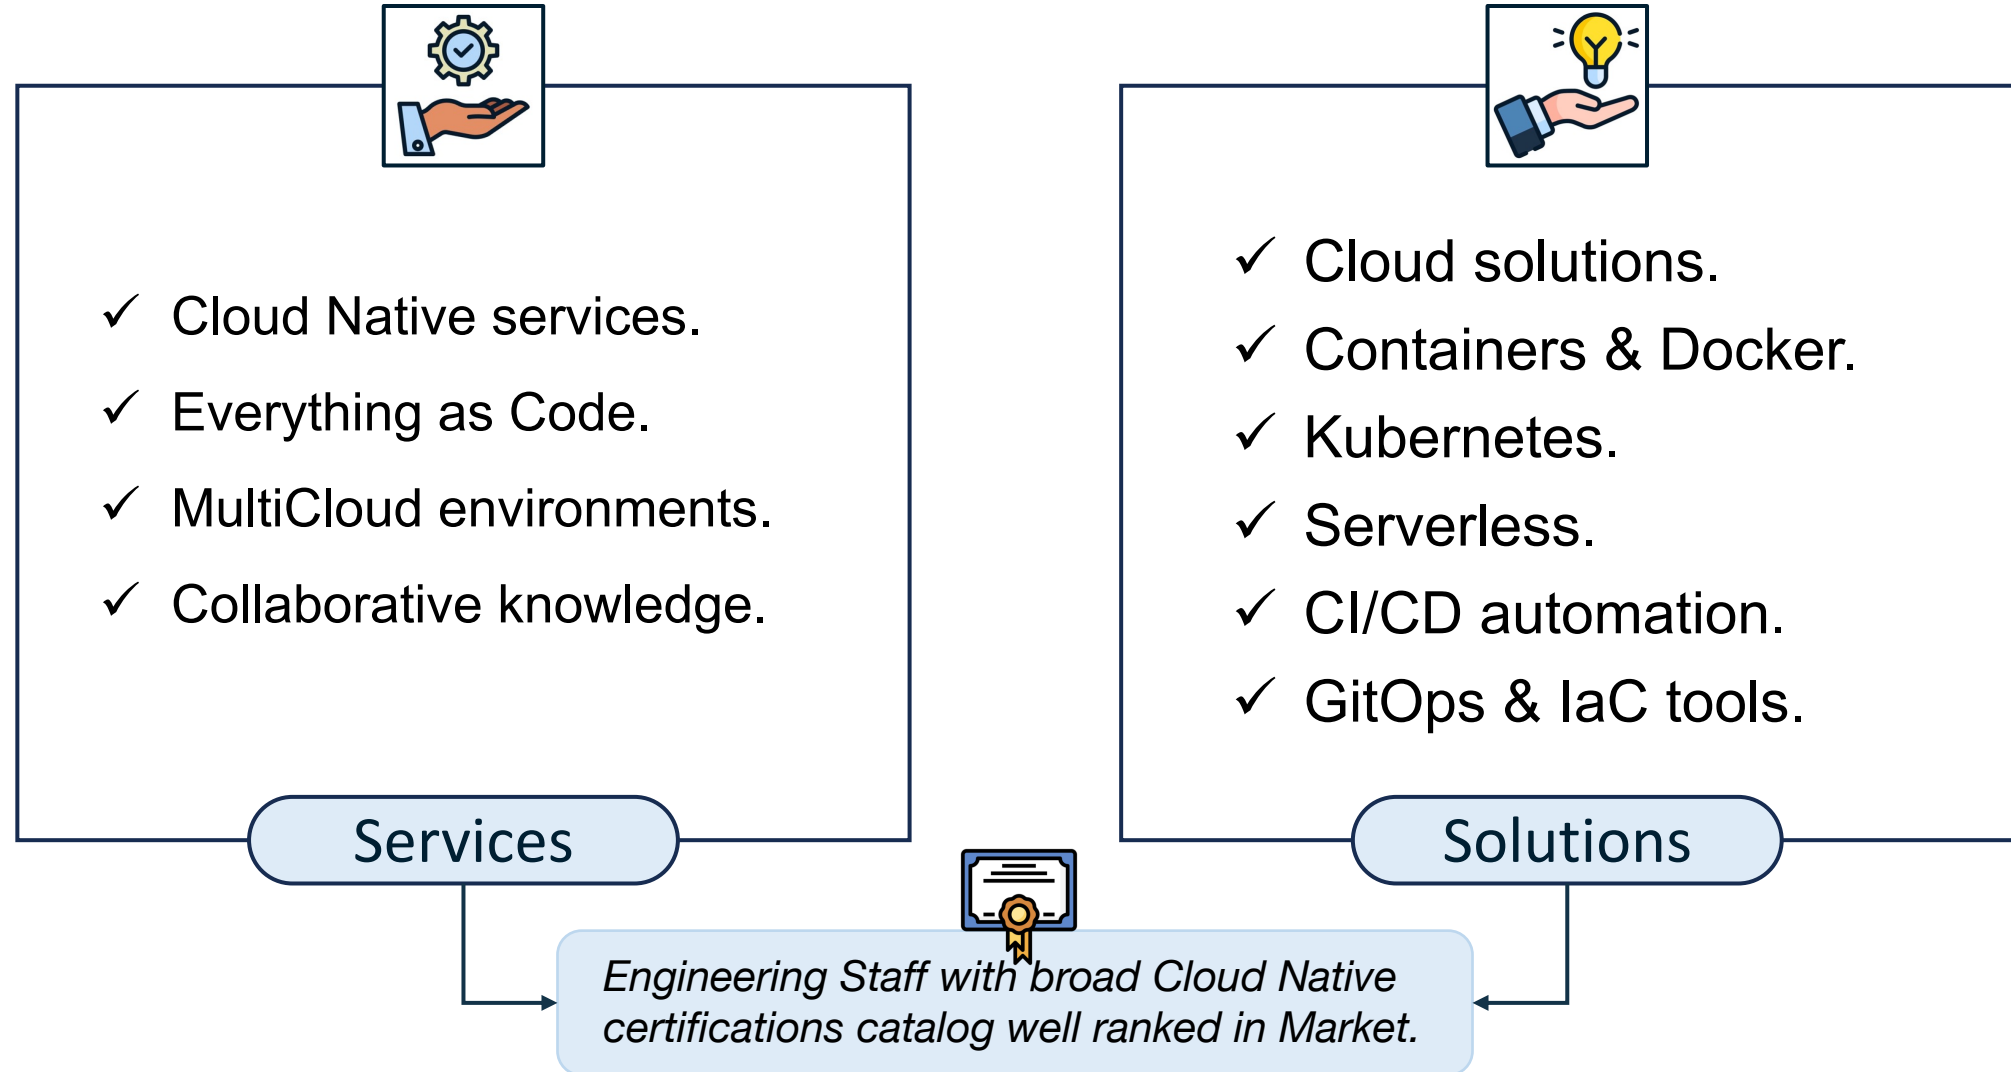

- Roadmap Cloud Native.
- MultiCloud strategy – Consistency.
- Performance Cloud Native systems.
 - ❖ Reliability.
 - ❖ Availability.
- Cost/Operational Burden.
- Complex management.
- Technical skills gap.

Todo a través del uso de tecnologías Cloud Native, herramientas MultiCloud, Open Source y el poder de la automatización en los diferentes CSP's.

How can we contribute to your goals?

Cloud Native:

Professional services.

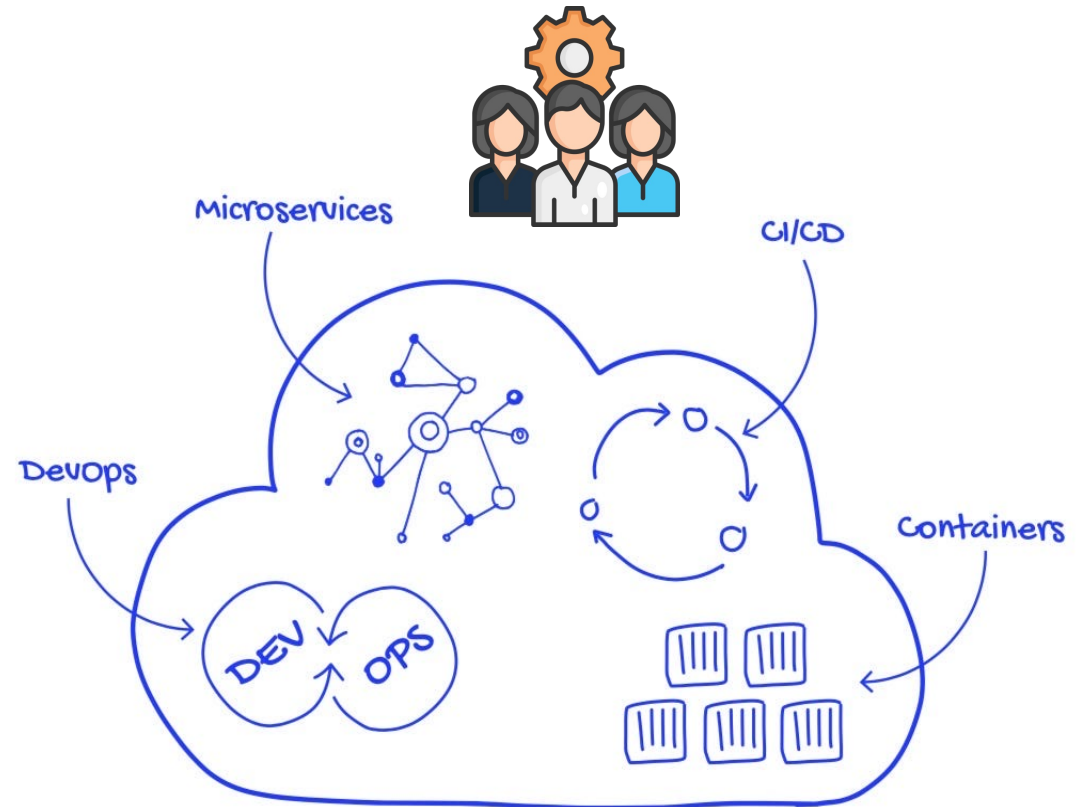

Managed services.

Consulting.

Monitoring.

Everything as Code:

Terraform.

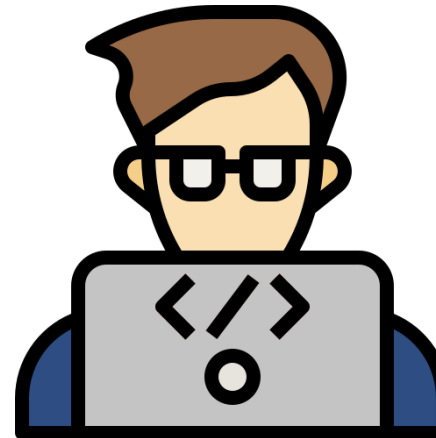

GitOps workflows.

Pipeline automation.

Secrets management.

- ✓ Automate.
- ✓ Leading to faster.
- ✓ Consistency.
- ✓ Reliability.

MultiCloud Environments:

Platform Agnostic.

AWS, Azure, GCP, OCI, Heroku, etc...

On-Premises environments like OpenShift.

Collaborative Knowledge:

Workshops & Hands-On Labs.

Technical Knowledge Transfer.

Experience:

Projects execution based on:

Cloud: AWS, Azure, GCP, OCI, Heroku, Openshift, etc...

GitOps & IaC: Argo CD, Argo Workflows, Terraform, CloudFormation, Azure DevOps, Pipelines, GitHub Actions, Helm, Serverless Framework.

Containers: Docker, K8S (including flavors), OpenShift, Fargate, Azure & OCI Container Instances.

Serverless: Functions on AWS, Azure & OCI, API's, Storing & Databases.
